

```
#include <stdio.h>

int main()
{
    int start, end, num, temp, sum = 0, r;

    printf("Enter starting and ending number:");
    scanf("%d", &start,&end);
    for(num=start;num<=end;num++)
    {
        temp = num;
        sum =0;

        while (temp != 0)
        {
            r = temp % 10;
            sum = sum + r * r * r;
            temp = temp / 10;
        }
        if (sum == num)
            printf("%d ",num);
    }
    return 0;
}
```
